# MESSAGE FROM THE HEAD OF SCHOOL

By Mike Miller

**Reminder-IB commitments/community events:** Unfortunately, I will be attending an IB professional development workshop at the same time as the holiday fair event on Friday December 01st.

However, in my absence, please lend your support to the school community by attending this fantastic event on Friday 01st December, from 1445 to approximately 1730. Looking forward to hearing wonderful feedback.

## **School calendar 2024-25:**

The school calendar has been approved for academic year 2024-25 and will be shared via next week's newsletter. We hope that this will allow parents to do some long term planning.

## **Additional food provider:**

shortly, we expect to be adding another food provider to our growing list of food providers. The new provider will be Tisna Kitchen. Tisna Kitchen is an established and experienced school menu/food provider in Bali, and

currently supplies a number of schools in the area. We look forward to sharing their menu very soon. They provide a range of very affordable Indonesian and Western dishes, all delivered in cardboard packaging with wooden cutlery, where necessary. No plastics or wrapping.

## **CIS:**

thank you all to those who have taken the time to complete the CIS survey. It would be extremely helpful if some more parents were to invest some time in completing the survey. The data is to be used to drive self-studies as we move forward trying to improve what we do, and how we do it. Please, if you have time, complete the survey and provide us with feedback. Feel free to tell us what we are also doing well in, in addition to the areas we need to do better in. [Here is the link](#). The survey closes on Thursday 30th November.

## Design Thinking Process

Our Grade-3/4 learners actively participated in the Design Thinking Process, an innovative problem-solving process that encourages critical thinking and creativity. This process empowers our young learners to approach challenges with a fresh perspective and develop practical and imaginative solutions. The design thinking process consists of five key stages: empathise, define, ideate, prototype, and test. It was incredible how our learners showcased their enthusiasm and action-oriented approach to identify the local problems and design creative solutions to bring a change in the surroundings.

# Building confidence in speaking Bahasa Indonesia through Show and Tell activity

Learning a new language is always fun but sometimes it is quite challenging for some students. It is very important for students to build a solid foundation for language acquisition so that they are able to use the language to communicate confidently. Students need to understand the new words, the sound of the letters, the pronunciation of the words, the sentence structures, and some grammatical items. Regular practice and review are essential for students to enhance their language skills.

Show and Tell activity is one of the activities that we use in Bahasa Indonesia B class as the warm-up activity. This activity takes only a few minutes before the lesson starts. Students are encouraged to show something and share anything about it in front of the class. They can show their favourite drawings, their books, new shoes, the photos of their pets or they can share about their recess time, weekend activity, holiday experiences, or other things they like. In the beginning, students will introduce themselves and then continue to show and tell the object they have. At the end, the audience is encouraged to ask simple questions in Indonesian. Some sentence starters were given to students so that they could have an idea of what to say. The sentence starters, such as:

Ini..... (What is it?)

Warnanya.....( the colour)

Ini.....(the size)

Saya membeli .....di.....(the place where they got it)

Saya ..... karena.....(how do they like it)

Students love doing this activity. It helps them boost their confidence in speaking a new language, practice their listening skills, allow them to connect with their peers, and create a positive and supportive learning environment.
